The cigarette paper and other raw materials are imported from the top manufacturers to ensure the consistency in taste. The manufacturing facility is ISO certified and fully automated to meet the rising demand of our extensive consumer base. This will reduce the cost by offering value to our customers. The cigarettes are packaged with the foil and in the airtight packets to ensure freshness. Our Quality Management department has the stringent policies in place. These policies ensure that our customers receive the exact amount of Tar and CO as specified on our packets. Our flavoured product lines have been carefully researched and blended to provide a unique taste and smoking experience.
